HEICO
YOUR WORLDWIDE PARTNER
FOR SPECIAL NAILS

YOUR WORLDWIDE PARTNER FOR SPECIAL NAILS

HEICO – OVER ONE CENTURY OF EXPERIENCE

Since the year 1900, HEICO has been manufacturing high-quality upholstery and furniture nails along with a wide range of other products such as logo nails, glides, nailhead strips, ply-grips, special tacks and security nails.

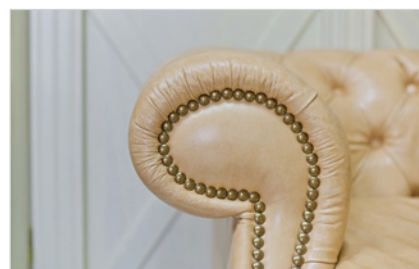

Whenever individuality is in demand our products are used on modern as well as traditional furniture. This is why HEICO Befestigungstechnik GmbH is appreciated by a steady growing customer base in the furniture industry and the craft sector.

Today, upholstery and furniture nails are not only traditional fastening elements but are also widely

used as decorative and high-class design elements.

Our range has continuously extended over the years and reflects this development. The large variety of forms and our ability to offer many different surfaces and finishes on our products allow our customers to manufacture durable and valuable upholstered furniture for each taste and style.

By using upholstery and furniture nails as special style elements you can give your products an individual touch and make them stand out against the mainstream.

UPHOLSTERY AND FURNITURE NAILS

Our customers can choose from a wide range of shapes, colours and surfaces. Through our long experience in the production of nails and the manufacturing of tools, HEICO is also able to offer custom-made designs.

FURNITURE GLIDES

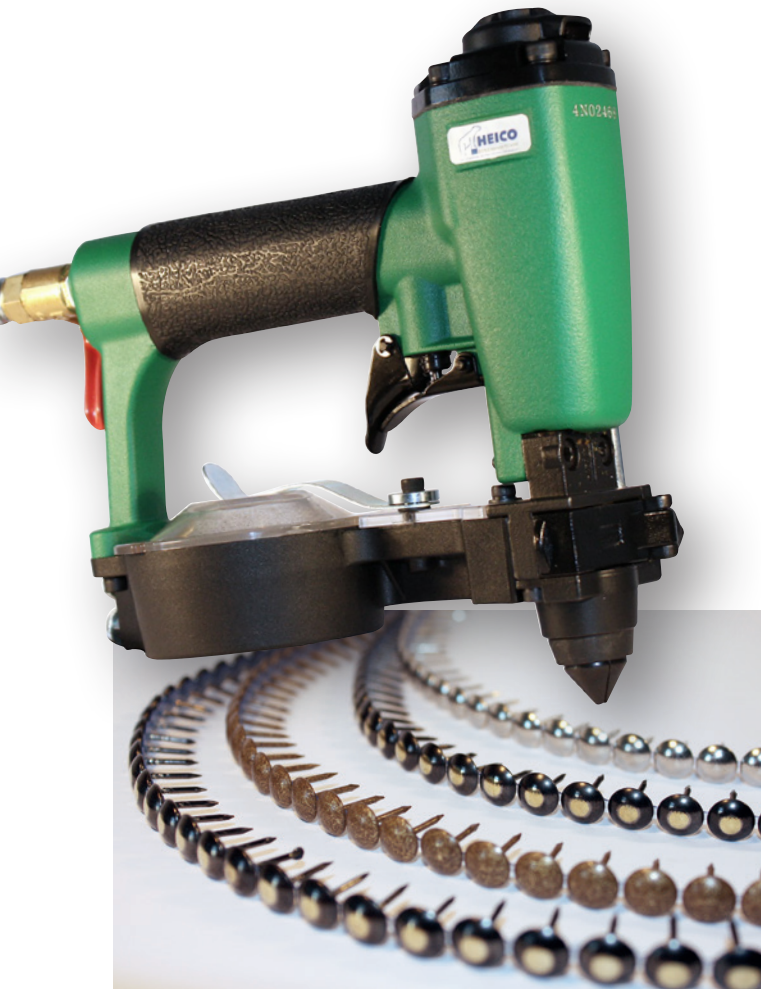

Our furniture glides are used to protect floor coverings. Our range of production includes glides made from steel or stainless steel, glides with rubber cushioning, felt glides, plastic glides and glides with screws for all kinds of furniture and floors.

SPECIAL FIELDS OF APPLICATION

Today, HEICO is also a reliable partner for fastening solutions beyond the furniture industry and the crafts. Our products are widely used as fastening and holder

systems, spacers or as functional decorative elements in the manufacturing of shoes and toys.

EFFICIENT WORKING

In order to make your production more efficient we offer nail guns for a wide variety of our nails. Depending on the head diameters of the nails and their shank lengths several gun models are available. Our guns are either single shot or multiple shot guns for loose nails but we also supply nails on strips for gun models of other manufacturers.

If you have any questions regarding our products or if you need further information, please contact our sales team directly or visit us at www.heico-group.com
